

## TRUCKVAULT AND THE H3T

TruckVault builds high-quality, durable products which provide a service valued by TruckVault owners and users across the country. Our product was developed and improved over the years with the help of thousands of sportsmen and women along with over 500 law enforcement departments and government agencies across the country. Most importantly, TruckVault owners and users promote and refer our products to their friends and neighbors which in our minds, is one of the highest compliments we can be paid.

These facts, combined with our commitment to backing our product and high standard of excellent customer service, laid the groundwork for our partnership with GM.

We thank you for considering an American built TruckVault Extreme All-Weather Series product as an add-on accessory to your new Hummer H3T. You may rest at ease when you organize and secure your valuable gear in a TruckVault product.

## TRUCKVAULT'S EXTREME ALL-WEATHER SERIES FOR THE 2009 HUMMER H3T

### WHY A TRUCKVAULT?

The TruckVault Extreme All-Weather Series is the perfect all conditions companion for your new Hummer H3T. Ideally suited for either covered or uncovered pick-up beds, the Extreme All-Weather Series is designed to suit your organizational and security needs as well as providing you, and your vehicle, greater travel flexibility.

- Proven protection from theft and break-in
- Protects against the elements and harmful condensation damage
- VectorLocked™ and Bulb sealed to keep water out
- Locks out dust and grit
- Heavy duty Vector locks
- Strong and light
- Simple installation
- Over a decade of experience
- Limited lifetime warranty

*Featuring our exclusive VectorLock™ system, the TruckVault Extreme All-Weather Series drawers seals water-tight and locks securely with a hidden key lock.*

*The TruckVault All-Weather Series is armor coated to protect against the elements and is securely fastened to your vehicle at 4 lock down points which also double as secure tie downs.*

### EXTREME ISN'T JUST A NAME...

When we say "Extreme", we aren't just tossing out words we think sound good. The Extreme All-Weather Series TruckVault for the new Hummer H3T is as extreme as it gets. From frigid Montana winters to blistering Texas summers, your gear will be protected to the fullest in a TruckVault Extreme All-Weather product.

We have exposed the Extreme All-Weather Series to the fire hose test, blasting both the face and the body of this product with over 100 lbs. of water pressure for over 15 minutes and not a drop got inside. We have also exposed the Extreme All-Weather Series to fire where temperatures reached 1,000 degrees for 15 minutes inside a burning SUV. Once the flames were doused and it was determined by the fire department safe to enter the vehicle, the drawer opened perfectly with all of the contents inside unharmed and barely warm to the touch. Put to the test, this product has taken on all challenges and has performed to expectations every time.
